I take it to be a piece of bravado in any man to assert that he had no fear during the progress of a long and severe engage ment. A battle is a veritable hell upon earth; not to be in scrious apprehension while it lasts is to be cither drank, crazy, or insensible. The highest type of bravery is that of the man who realizes the full ectent of the peril, but steks resolutely to his duty. It is not often that shells are thrown so that their fragments scatter death and wounds, and their loud humming overhead does not cause that nervous tingling which always follows the sharp zip of the rifle bullet. Pumps on short notice.

The advantages of this Pump over many others are many. The Chain being button-less, it is much lighter, consequently it is not liable to break, and works much easier. The RUBBER BUCKETS which are attached to the Chain will not wear the Tubing, consequently it will nationger than when Metal Buttons are used. It is, positively, ANTI-FIREZING. It is a positive WATER PURIFIER, as each Bucket is const noted with an AIR CHAMBER, which carries a given quantity of pure air into the water, which immediately diffuses through the ontire body of water, purifying and cleaning, and rendering it fit for use.
